BOX HILL INDOOR SPORTS 9 CLARICE RD, BOX HILL PH: 98907000

www.boxhillindoorsports.com.au

Our Futsal/Soccer program follows the coaching curriculum of the **Concept4Football** technical program. The program has been devised by **Gwynne Berry** - former player with Crystal Palace FC and Academy Technical Coach at English Premier League Club West Ham United. The Curriculum has been devised to aid the technical improvement in Elite Players, but is now being delivered to grassroots as well.

Our Cricket program derives some of the principles and philosophies of the **Cricket Australia** coaching accreditation program. Children are provided with the skills and knowledge in an attempt to aid their development and improvement. The curriculum is taught in a confined space of an Indoor Cricket court which allows for continuous involvement in drills and a sharper skill set for both the indoor and outdoor game.

Our Netball program delivers a curriculum for 5-12 year olds similar to Netball Australia's **NetSetGo** program. We aim to give children a positive initial experience of the game, and enable them to build confidence so that they can become long term participants. We use modified equipment such as smaller balls and lower netball rings to make the initial experience somewhat easier for the kids. Our coaches also have a playing and umpiring background which gives them a better understanding of the game and its rules.

Our Basketball program is aimed at teaching the kids the fundamentals of the game, similar to the **Hoops** program of **Basketball Australia**. We place a high emphasis on kids having FUN in a SAFE environment. The program takes place on our brand new Basketball court, and is ideal for kids wanting to build their skill set before starting competitive Basketball, or for those seeking additional training.

ACTION KIDZ REGISTRATION

Please complete form using Adobe Reader, save with new file name and email to boxhill@actionindoorsports.com.au or print and return
